

3 Times When Having Malpractice Insurance From Berxi Can Protect Your Career

3 Times When Having Malpractice Insurance From Berxi Can Protect Your Career

Did you know having the right professional insurance has the potential to protect your career? Berxi knows. They've developed a number of professional-level malpractice insurance plans for people just like you—people who have built a career and want to continue growing within that career.

Berxi offers [malpractice insurance for nurses](#), dentists, physical therapists, and more. They also have errors and omissions (E&O) policies for those in professional service industries like financial planning, home inspection, and freelancing. How can Berxi's malpractice and E&O policies protect your career?

When a Patient Files a Claim

What happens next if a patient, patient's family, or client files a claim and you lack coverage? The claim doesn't go away. Instead, you may have to handle the costs associated with that claim. This can include hiring an attorney, dealing with court costs, and even a potential settlement. Plus, you may be saddled with the time commitment of dealing with the claim.

This may be the number one reason to have malpractice [insurance for nursing](#) or an E&O policy for financial planning—or any professional career. When a claim is filed, you can call up your insurer, like Berxi. They can help guide you through the claims process. And many of the associated costs of the claim may be taken care of by your policy.

When Your Reputation Is on the Line

If a claim is filed against you, a lot of things can happen. In some cases, your professional reputation may get caught up in the mix of the filing. You may have an upset client who decided to take their claim to social media. Or word of the claim may have spread from your place of work to the public. What do you do when that happens?

With a Berxi medical malpractice policy, you may have the tools and resources you need to get through these kinds of awkward situations. Berxi may connect you with a public relations specialist who, in turn, may offer guidance in managing the situation. For professionals in higher-profile roles, this may be essential.

When a HIPAA Claim is Filed

Sometimes, even the smallest mistake can turn into a large issue. HIPAA violations can fall into this category. There can be instances when a healthcare professional may not realize they're violating HIPAA rules. It may be the slightest slip of patient information to a non-privileged individual—and that's all it takes.

Berxi's healthcare malpractice coverage, including their [nursing malpractice insurance](#), can help you manage costs related to HIPAA violation defense, as well as costs related to HIPAA fines. Berxi may also connect you to counsel who can then guide you through defense proceedings.

These are just a handful of examples of how professional insurance can be there for you. You don't have to risk your career. You can get protection for unforeseen circumstances that can threaten your career so you can keep that career on track.
