

Prepping For Holiday Party Makeup with IMAGE Skincare®

Prepping For Holiday Party Makeup with IMAGE Skincare®

Are you prepping your face for a holiday party? A good base is essential for party makeup. Having the right skincare routine can get your face ready. With IMAGE Skincare® products, like a [hyaluronic acid serum](#), you can keep your face hydrated and looking its best, ready for glittery eyes, frosted eyebrows, or whatever festive holiday makeup you can imagine.

Exfoliate and Cleanse

The first steps are exfoliating and cleansing. You want to exfoliate a day or two before the party to minimize any irritation. Try the AGELESS total resurfacing masque, which uses glycolic and salicylic acids to gently exfoliate. Alpha and beta hydroxy acids buff away dead skin, helping other products work more effectively. For a cleanser you can use every day, try the VITAL C hydrating facial cleanser. Not only is it soothing and can help you get a radiant complexion, this creamy cleanser also infuses your skin with vitamins A, C, and E. It's the start of major hydration for your skin.

Keep Your Skin Hydrated

Speaking of hydrating your skin, use a hyaluronic acid serum to help attract and lock in moisture. This can naturally plump your skin, fading fine lines and wrinkles. The AGELESS total pure hyaluronic 6 filler also contains concentrated topical filler made of six different forms of hyaluronic acid, helping smooth the appearance of wrinkles. It's a great way to fill in lines without injections.

Perfect the Pout

With the ORMEDIC® balancing lip enhancement complex, it's easy to achieve the appearance of plumper, fuller lips, perfect for lipstick or lip gloss. This [lip treatment](#) deeply moisturizes your lips, helping deliver a fuller appearance. Vitamin E and avocado oil provide a surge of moisture, nourishing and softening your lips, and a polypeptide complex helps give them a plump look.

Don't Forget the Eyes

It's easy to overlook your eyes. If you're drawing attention to your eyes with glittery makeup for a holiday party, do yourself a favor and use IMAGE MD® restoring eye masks. These hydrogel eye masks help firm, refresh, and soothe eyes, improving the appearance of fine lines while reducing visible signs of fatigue.

Try a Facial

You can also get professional skincare help before a holiday party. With a [Hand and Stone facial](#), expert estheticians can help you find the perfect products for your skin to help you get ready. The IMAGE Classic Facial, for example, is fully customizable and tailored to your specific skin needs, nourishing and hydrating your skin while brightening your complexion.
