

## 4 Tips for Healthy-Looking Skin with IMAGE Skincare®

## 4 Tips for Healthy-Looking Skin with IMAGE Skincare®

---

Getting skin that looks healthy and feels great is easy with help from IMAGE Skincare®. You can look and feel your best with ingredients that can help hydrate and plump your skin while giving it a healthy glow. From using a [hyaluronic acid serum](#) to lock in hydration to treating your lips and eyes delicately, the right products can help your skin look naturally healthy.

### Vitamin C is a Hydrating Powerhouse

One of the best ways to hydrate your skin is to use products with vitamin C. The VITAL C line from IMAGE Skincare can help hydrate and plump your skin. Hydrated, plump skin looks naturally healthy, and the VITAL C line can also help give your skin a natural glow. Add an anti aging serum to your routine or use a vitamin C-enhanced cleanser to give your skin the nourishment it needs. Vitamin C can also help brighten your skin, reducing the appearance of dullness. It also helps reduce signs of environmental damage, such as from UV rays, which often appear as fine lines and wrinkles.

## Use Hyaluronic Acid to Lock In Moisture

Vitamin C might hydrate your skin, but you also need to lock in the moisture. Choose IMAGE Skincare products with hyaluronic acid, which will lock in hydration and help support your skin's natural moisture barrier. Combine hyaluronic acid with vitamin C, such as in the anti aging serum, and you get a magnet for moisture while ensuring it stays in your skin, plumping it and smoothing out fine lines and wrinkles. It's a potent combination for helping your skin look supple and smooth.

## Treat Lips and Under Eyes Delicately

Treating your lips and the area under your eyes differs slightly from the other parts of your face. These areas are more delicate and require different products. For example, an IMAGE Skincare ORMEDIC® balancing [lip treatment](#) complex can deeply hydrate to help give you plumper, fuller lips. Avocado and vitamin E provide surges of moisture, instantly soothing, comforting, and nourishing dry lips.

## Get a Professional Facial

Do you need help creating a routine? Do you want to treat yourself while helping your skin look and feel healthier? Try a [Hand and Stone facial](#) with IMAGE Skincare products. The Hand and Stone estheticians can help guide you to your desired products. They can help customize a facial to address your concerns while helping rejuvenate your skin. It's a refresh that will help hydrate your skin, giving you a youthful glow. Depending on your desired outcome, you have a few different options, but all of the facial options can help revitalize your skin.
