

4 Ways to Make Father's Day Extra Sweet with Cookies From Emmy's Organics

## 4 Ways to Make Father's Day Extra Sweet with Cookies From Emmy's Organics

---

Whether your dad taught you how to change a tire, bake the perfect zucchini bread, or identify countless star constellations, chances are you've learned a lot from your father. This June 16th, celebrate the father of your kiddos or your own dad with a fun-filled day and simple sweet treats from Emmy's Organics.

### Get a Strong Start

Start the big day off right with a tasty breakfast! For a breakfast your little ones can help with, make simple—but delicious—yogurt parfaits.

To make this sweet and satiating breakfast, crumble a gluten free [Dark Cacao cookie](#) from Emmy's Organics onto your favorite protein-packed yogurt and top with fresh fruit. Delicious hints of chocolate, plus a satisfying texture, make Dark Cacao cookies from Emmy's Organics a fantastic gluten free alternative to granola—and you can also try their other flavors!

### Reel in Some Memories

Although you may do more fishing than catching, a family fishing trip is a classic Father's Day pastime. Your family can enjoy the sunshine, spend quality time together, and listen to your dad share his classic fishing wisdom—even if nothing bites!

Pack a picnic and fishing poles to prepare for a day on the banks of your local pond, lake, or river. Grab a resealable bag of Emmy's gluten free cookies to snack on for an easy-to-pack treat. Even if the fish aren't biting, a bite-sized [chocolate coconut cookie](#) from Emmy's Organics will keep everyone's spirits high.

### **Cook Up Something Special**

Celebrate the most important guy in your life with a family dinner. A June evening calls for a barbecue, so grab some coal and fire up the grill. While many dads may prefer that you leave the grilling to them, add something special to your Father's Day barbecue by whipping up a tasty dessert for the whole family to enjoy.

Whether you have gluten free or dairy-free kids or just love using natural, simple ingredients, a pan of brownies or blondies made with a simple, grain-free baking mix from Emmy's Organics is sure to satisfy everyone's sweet tooth.

### **Celebrate Dad *Every* Day**

Make sure that your dad feels loved and appreciated throughout the rest of the year with a gift that keeps on giving: a monthly subscription service.

From a subscription to his favorite golf magazine to a membership in a wine club, choose a subscription service that is perfect for the most special man in your life. If you lovingly tease him about his sweet tooth, keep the pantry stocked with a guilt-free sweet treat by signing him up for the Emmy's Organics Best Sellers subscription to get [Chocolate Chip Coconut Cookies](#) and other classic flavors delivered monthly.

No one makes wisecracks or delivers words of wisdom quite like a dad. This June 16th, show the dads in your life some love and appreciation with quality time and tasty treats from Emmy's Organics.
