From Armitron®**

5 Amazing Must-See Women's Watches From Armitron®

Armitron® has long set themselves apart with their amazing selection of women's watches. In addition to being acclaimed for creating high-quality, great-looking watches at an exceptional value, Armitron® is also renowned for the variety of women's designs they offer.

Beyond finding an iconic women's gold watch, you can also browse through their selection for a retro watch, leather watch, [sport watch](#), and much more. Better still, Armitron® features a number of watches that support positive human rights, women's issues, and environmental causes, so there's something for everyone.

Be sure to check out some of the following examples.

Pink Tilly™

The Tilly™ is a long-time Armitron® favorite for its famously elegant, classy design. Simply put,

it's the ultimate iconic [gold watch for women](#).

However, with the recently released Pink Tilly™ collection, the stylish grace and strength expressed by this watch also reflects the resilience and strength of breast cancer warriors around the world. That's because the Pink Tilly™ collection was launched to support the Susan G. Komen® breast cancer advocacy organization. If this cause is close to your heart or you just want to show your support, be sure to check out this collaboration.

Teal Wave™

The Wave™ collection represents another way Armitron® watches stand out. In this case, it's how the brand has managed to combine environmental sustainability with trustworthy, high-quality design.

Watches in the unisex Wave™ collection are made from reclaimed and recycled ocean-bound plastic. While the teal model is gorgeous, you can explore all the other colors as well.

Purple Dragonfly™

The selection of [sport watches for men](#) and women from Armitron® is often associated with reliability. That's certainly an accurate assessment, and the Dragonfly™ shows that they can also be a statement-making piece for your next trip to the gym.

This petite digital chronograph sport watch is perfect for cardio on the treadmill, a HIIT workout, or to time your rest period between sets. For a feminine touch, the purple colorway is a true eye-catcher.

Love™ and Bloom™ From Johnny Wujek

Artist and stylist-of-the-stars Johnny Wujek, is among the most beloved Armitron® design partners.

Wujek's Love™ and Bloom™ models are vividly colorful and beautiful. Even better, the bright red heart centerpiece of the Love™ design spins slowly throughout the day. Bloom™ features two rotating "hands" of a flower illustration that presents a fresh face every time you check the time. If you like fun, artsy designs, be sure you check out the Happy™ and Peace™ models as well!

Gold and Blue Millie™

The Armitron® Millie™ is a triumphant blend of bling and sophistication. This dramatic watch pops with color—bright gold, a crystal-ringed bezel, and a brilliant blue dial and strap. It's sure to turn heads.

For those who prefer more fiery shades this autumn, a rich red leather band is no less striking.
