

5 Professions Berxi Can Help Protect with Professional Insurance

5 Professions Berxi Can Help Protect with Professional Insurance

Professional liability insurance is essential in keeping your career safe and secure, no matter what professional environment you work in. You may still need liability insurance even if you aren't a lawyer or doctor. For example, nurses should have [malpractice insurance for RN](#) before seeing patients.

Berxi offers affordable, straightforward insurance options that protect individuals from the unique risks of their profession, whether they work in the dental, healthcare, mental health, real estate, technology, or fitness and wellness industries.

Below are five professions Berxi can help protect with professional insurance:

Nurses

Nurses care and look after others, but sometimes they need someone to look after them. Berxi does just that—protects nurses from costs associated with claims of negligence or incompetence, including liability and legal defense expenses. For example, they offer [malpractice insurance nurse practitioner](#) policies and plans for student nurses, LPNs, and RNs.

Dental Professionals

Whether you're a dentist, orthodontist, dental hygienist, or other dental professional, Berxi offers fast, easy, and affordable [dentists malpractice insurance](#) policies for dental professionals. Many people think malpractice liability insurance is only necessary for doctors, dentists, or oral surgeons performing surgery, but an insurance plan is helpful for almost any healthcare provider. For example, if a dental hygienist mistakenly uses the wrong tool and

damages a patient's gums, they could get sued for negligence. An employer may not provide enough protection for dental professionals because their insurance puts their needs first. An individual Berxi policy ensures you are protected.

Social Workers

Clinical social workers are devoted to helping others. With healing at the forefront of any social worker's practice, it's not unheard of for a patient or their relative to accuse them of malpractice or negligence. Though lawsuits against social workers are infrequent, they do happen, and should you find yourself in this situation, your Berxi malpractice insurance policy would provide you with a legal team and financial support to help you navigate the process.

Real Estate Agents

As a real estate broker, your team finds dream homes for families to settle into and raise their families. A significant financial decision carries some risk that is sometimes out of your control. Berxi offers errors & omissions (E&O) insurance. If a client claims you made a costly mistake or were negligent, your policy will provide legal counsel to defend claims or lawsuits and the funds to pay for any damages you may owe.

Physical Therapists

Physical therapists improve lives by optimizing movement and function, but sometimes things happen, and they get sued as an individual or group claim with the doctors, nurses, and therapists working with the patient. You must protect yourself, your business, and your career; Berxi can help! With medical malpractice insurance, you'll get an expert team of Berxi professionals to protect your best interests and insurance for any expenses that result from your defense or any damages that need to be paid.
