

## A Breakthrough in Treating Sensual Ailments With Extra Super M Force

[Extra Super M Force](#) is a prescription medication designed to treat two prevalent sensual dysfunctions in men: [Erectile Dysfunction](#) & [Premature Ejaculation](#). [Erectile Dysfunction](#) is the state whereby a man cannot achieve an erection, sustain it, or both sufficient to suit their satisfactory sensual activity. On the other hand, [Premature Ejaculation](#) refers to the phenomenon where ejaculation takes place earlier than preferred, at any stage ranging from prior to penetration or soon after penetration, making the man and or his partner upset.

### EXTRA SUPER M FORCE

**Sildenafil 100 MG**

This pill's efficiency relies on the components [Sildenafil Citrate 100mg](#) and [Dapoxetine 100mg](#). [Sildenafil Citrate](#), indeed defined as the generic name for [Viagra](#), is classified as a phosphodiesterase type 5 (PDE5) inhibitor. It is effective in that it enhances the circulation of blood in the genital area, thus enhancing and sustaining an erection during sensual activities. [Dapoxetine](#) is an SSRI antagonist that helps to delay ejaculation and provides more control over it, making it effective against PE.

### Advantages of [Extra Super M Force](#)

- Originally intended to cure the treatment of [erectile dysfunction](#) and, at the same time, the problem of premature ejaculations.
- Improves the quality and strength of erection and the overall time spent in intercourse.
- Beneficial to men to have faith in their capability of performing sensually, decreases stress, and contributes positively to their psychological well-being.
- Enhances the quality of sensual interactions, which leads to a positive effect for both the male and female partners.
- Allows the administration of two treatments in a single pill, thus enhancing compliance.

### Dosage of [Extra Super M Force](#)

- The mentioned dosing is one tablet that should be consumed with water, and it is suggested to take it 1 to 3 hours before the intended intercourse.
- It is advisable to take medicine in advance to give time for both compounds in the formulation to take effect.
- One dose of the medication should not be repeated within the next twenty-four hours.
- Dose adaptation might be required depending on the patient's response and intolerance. It should be noted that deciding on the dosage of the product requires consultation with a doctor.

### Precautions that need to be taken while using [Extra Super M Force](#)

- You should disclose your prior medical conditions and diseases to your healthcare provider, especially severe heart, liver, or kidney diseases or psychiatric diseases.
- It is crucial to reveal the medications you are using at the moment, including prescriptions, over-the-counter medications, and herbal supplements, since they can interfere with treatment.
- Avoid alcohol and do not take recreational pills since they can worsen the side effects or affect the efficiency of the medication.
- Some of the main components of [Extra Super M Force](#) include [Sildenafil 100mg](#) and [Dapoxetine 100mg](#), so make sure you are not allergic to them.

### Conclusion

[Extra Super M Force](#) is an important addition in the way that sensual problems of a man, especially [erectile dysfunction](#) and premature ejaculation, are treated. Being a two-in-one medicine that is a combination of [Sildenafil Citrate 100mg](#) and [Dapoxetine 100mg](#) it serves the purpose of addressing male sensual dysfunction and improving the overall productivity and satisfaction of life.

It is therefore recommended that before one starts taking [Extra Super M Force](#) they seek the advice of a health care provider regarding the appropriateness of this product to the individual's needs and the correct way to use it. When used correctly, the power of [Extra Super M Force](#) can prove to be an effective tool in fighting sensual conditions and reclaiming manly vigor.
