

Come Out of Skincare Hibernation with Forest-Infused Products From Ursa Major

Come Out of Skincare Hibernation with Forest-Infused Products From Ursa Major

Whether you want to enjoy the last days of winter or dive head-first into spring, Ursa Major can help you come out of hibernation with healthy-looking skin. The clean skincare brand offers innovative formulas with forest-infused ingredients that bring fresh air to skincare. With more sunny days ahead, you can get a fresh start this season with Ursa Major.

Wake Up Your Skin with a Cleanser

Wake up your skin with Ursa Major's Fantastic Face Wash. This refreshing cleanser helps wash away buildup and unnecessary oils for a smooth and radiant-looking canvas. After cleansing your skin, you can go in with Ursa Major's 4-in-1 Essential Face Tonic to exfoliate, soothe, and hydrate. The tonic and the Essential [Face Wipes](#) feature the same formula and contain super soothing, natural ingredients like birch sap and green tea. These ingredients can help even out the look of skin tone and calm the complexion's appearance.

Shave the Winter Coat with a Natural Shave Cream

If you've been hibernating all winter, you might have a little more body and facial hair than what is usually comfortable for you. Grab Ursa Major's creamy Stellar Shave Cream and get to work to reveal incredibly smooth skin. The rich, non-lathering [natural shave cream](#) is moisturizing and cushioning, with concentrations of powerful actives, including peptides and essential fatty acids. It can help you glide a razor over your skin and give it a healthy-looking glow.

Boost Your Glow with a Serum

Serums are concentrated formulas that deliver nutrients to your skin. If you want a healthy-looking mountain glow, add serums to your skincare routine and refresh your regimen. Ursa Major offers three awesome serums you can use daily. Their Brighten Up Vitamin C Serum and Mountain Glow Golden Serum are fantastic choices for all skin types. And if you want to support a youthful-looking complexion, add the Lunar Bloom Retinal Serum to your evening routine, building up to nightly use. Just be sure to use sunscreen daily!

Nourish Your Skin with a Moisturizer

Moisturizers may be your hero skincare product for nourishing, hydrating, and moisturizing your complexion. Ursa Major offers a number of hydrating products. Golden Hour Recovery Cream is a great day and night cream. It's lightweight and non-greasy with sea buckthorn, black currant, and calendula. Alpine Rich Cream is a thicker moisturizer for mature or dry skin. Both products perform as a day or night cream, so it's up to you how you incorporate one (or both!) into your routine.

Protect Against UV Rays with an SPF Formula

With more sunny days ahead, you want to protect your skin from UV rays. The lightweight Force Field SPF 30 from Ursa Major is a daily product with moisturizing ingredients. It glides easily over the skin, providing broad-spectrum protection from UVA and UVB rays, blue light, and environmental stressors.

Ursa Major is passionate about providing people with the tools to support and protect their skin. You can avoid harsh ingredients and suspect chemicals. Just opt for clean products with pure ingredients instead. Multitasking products like the [wipes for face](#) can simplify your routine. By simplifying skincare routines with products that truly work, you can come out of hibernation and take care of your skin with more time for the adventures you love.
