

**Determining If Berxi's Malpractice Insurance Is  
Right for Your Nursing Career**

# Determining If Berxi's Malpractice Insurance Is Right for Your Nursing Career

---

If you're just starting out in your career as a nurse, chances are you have a long list of goals you want to accomplish. You may have a few short-term goals, along with long-term intentions. You want to grow and flourish in your career. And if you're established in your career as a nurse, chances are you, too, have goals you're continuing to pursue—and you have many goals you've already accomplished.

No matter where you may be in your career, there's also a good chance you want to protect your progress. You want to protect your interests as a healthcare professional. Can Berxi's [malpractice insurance for nurses](#) help you accomplish this goal? Berxi specializes in professional insurance, including tailored medical malpractice policies.

As you look to the future of your nursing career, here are a few questions to consider to determine if malpractice insurance makes sense.

## **Do I Want to Protect My Career?**

This may be one of the biggest questions to ask. Who doesn't want to protect their career? But you might wonder how malpractice insurance for nurses can protect your career. Berxi's policies can connect you with crucial resources should your career come under threat—such as by a malpractice lawsuit. These resources can include legal defense counsel, consent to settle, and HIPAA violation protection. It can also include reputation coverage. Together, these kinds of resources can help you navigate many of the challenges of a lawsuit and help keep your career on track.

## **Do I Want a Policy That Follows My Career Path?**

Berxi tailors their [nursing malpractice insurance](#) to nurses who may be in different stages of their careers. In other words, if you want a policy that can function alongside your career path, Berxi's policies can make sense. They have terms tailored to nursing students, RNs, LPNs/LVNs, and nurse practitioners—along with a host of other medical professions. Your policy can also follow you from employer to employer. You can retain coverage if, for example, you leave your hospital employer for a private clinic.

## **Do I Want Insurance Made to Be Accessible and Affordable?**

Who doesn't want insurance to be accessible and affordable? As you research [malpractice insurance for nursing](#), you may come across a lot of different options. Some options may be more challenging to figure out—there's a lot of fine print. You may also find options that don't meet your budgetary expectations. Berxi is a direct-to-customer insurer. They've cut out third parties and work with you directly. This can cut away a lot of fine print. It can also cut out unnecessary fees that can be tacked onto your premiums. The result is policies that are more accessible and affordable!
