Diabetes

Diabetes has developed to one of the most serious health threatens to the public throughout the world. A number of factors are reported to be associated with the exacerbation of diabetes, such as increasing urbanization, dietary changes, reduced physical activity, unhealthy lifestyle, ageing population and problematic behavioral patterns. **Creative Enzymes** is devoted to supporting diabetes research and drug development in pharmaceuticals and institutes with our enzyme products.

Blood sugar test serves as the rapidest and most straightforward means to give a sign of diabetes. A number of enzymes involved in glucose metabolism were developed to react with glucose and subsequently to indicate glucose content in blood sample. A wide variety of diabetes related enzymes from different sources can be located in **Creative Enzymes**. For instance, glucose-6-phosphate dehydrogenase deficiency was found to be a risk factor for diabetes. Intensive studies are being carried out to explain this association. Glucose oxidase and glucose dehydrogenase are mostly commonly used for clinical blood sugar test. Hexokinase catalyzes the phosphorylation of glucose to yield glucose 6-phosphate, which initiates the utilization of glucose. Other relevant enzyme products are also available in our catalog.

Creative Enzymes is here to advance the diagnosis of diabetes by offering our enzyme products. For more information, please feel free to [contact us](#). We are looking forward to your inquiry.

Product List

<p>DIA-145</p> <p>Native Microorganism Glucose-6-phosphate Dehydrogenase</p>	<p>DIA-202</p> <p>Native Microorganism Hexokinase</p>	<p>DIA-321</p> <p>Native Leuconostoc mesenteroides Glucose-6-phosphate Dehydrogenase</p>
<p>NATE-0251</p> <p>Native Microorganism Glucose Dehydrogenase (FAD-dependent)</p>	<p>NATE-0322</p> <p>Native Bovine Glutathione Peroxidase</p>	<p>NATE-0854</p> <p>Ketoamine Oxidase, Recombinant</p>
<p>NATE-1139</p> <p>Glucose Dehydrogenase, Recombinant</p>		

Online Inquiry

Welcome! For price inquiries, please feel free to contact us through the form on the left side. We will get back to you as soon as possible.
