

Don't Sweat the Outfit—Take It Easy with Mizzen+Main

Don't Sweat the Outfit—Take It Easy with Mizzen+Main

There comes a time in every man's life when he looks in his closet and knows—he just knows—it's time for an upgrade. You're tired of trips to the dry cleaner every week. You're over shirts that wrinkle easily. It's time to say goodbye to restrictive pants and poorly fitting jackets.

Are you ready to make some changes? Mizzen+Main has everything you need to transform your wardrobe with ease. Think of it as a partnership.

This innovative menswear brand offers a wide selection of collared shirts, [golf polos](#), pants, vests, quarter-zips, and accessories to keep your closet up to date. Whether it's a day at the office or a weekend around town, you can finally take it easy. Mizzen+Main has the styles you need to feel well-dressed and comfortable all day long.

Find Clothes You Actually Want to Wear

The variety of options at Mizzen+Main allows every man to find shirts, pants, jackets, and more that suit his style. Check out their machine-washable collared shirts, which include [no tuck shirts](#) and golf polos. Or explore seasonal looks, like Henleys, vests, and crewneck sweaters.

Plus, Mizzen+Main offers so much more than collared shirts. They know every aspect of your dynamic wardrobe should feel like an extension of who you are. Pick up flannels, pants, blazers, and stylish vests that are as comfortable as your favorite athletic wear. With optimal

breathability, moisture-wicking technology, and built-in stretch, these are styles you'll actually want to wear.

Wear the Right Colors

If you look in your closet and see a lot of whites, blacks, and blues, consider adding a few more colors to your rotation with styles that don't sacrifice fit or comfort. Maroon, plum, spruce, heathered olive, and prints like gingham and plaid always look great. Colors and patterns are also excellent ways to get into the seasonal spirit.

Mizzen+Main's menswear features a variety of colors that are perfect for both professional and casual settings. Wear them to the office, on the golf course, at a restaurant, or to a holiday gathering with family. Whether it's a collared shirt or a quilted vest, you'll find a color that's ready to take your closet to a whole new level.

If you love neutral hues or prefer to stick to the basics, start smaller and introduce color into your closet at your own pace. Add a blue gingham collared shirt to your rotation, or try layering one of your white collared shirts under a dark green sweater.

Keep Your Closet Interesting

When you keep your closet interesting, your clothing choices naturally become more intentional. That always makes a good impression. You don't have to stay away from classic cuts and styles. Mizzen+Main keeps things interesting without completely reinventing the wheel—they've just made the strategic upgrades you need for a fit that's tailored to you.

Bringing more options into your closet is an effective way to elevate your look. Try a [navy blue blazer](#), blue gingham collared shirt, and a brown belt with khaki pants. Or layer a green, herringbone quarter zip over a gray plaid shirt with black pants. Even subtle and simple changes make a big difference, especially if you don't often experiment with new styles.

No matter how you approach a closet upgrade, don't sweat it. Mizzen+Main is ready to help you fine-tune the details with machine-washable, wrinkle-resistant styles to take you from the office during the week to family dinner on a Sunday afternoon.
