### Common Sensual Problems in Males

Men can suffer from a lot of problems during sensual contact. Some of them might be:

- **Erectile disorder or Impotence**

This type of illness does not allow men to be able to gain or maintain an erection during sensual contact with the lady. This illness can occur at any age. Men who are above 75 suffer more from this illness. However, this illness is not a part of becoming old. Many men need more stimulation to gain an erection. Men who are old can still gain erections and enjoy sensual contact.

- **Early ejaculation (PE)**

This sensual complaint occurs when a man releases semen too soon during the sensual contact with the lady. It is a very common type of sensual complaint among men. 1 in 3 men tend to suffer from this illness

### Sensual contact and Aging

A variety of changes might take place in your desire to be involved in sensual contact with the lady. Many times men require sensual stimulation to be involved in the sensual contact. Many times it might take longer to get an erection. Drastic changes in your sensual health might require you to contact a doctor immediately.

## **Health Problems Leading to Male Sensual Dysfunction**

A lot of health problems might impact your sensual life. A lot of conditions can impact your sensual ability to be included in sensual contact:

- Heart and vascular (blood vessel) disease
- Diabetes
- Hormone imbalances
- Nervous system disorders like multiple sclerosis and Parkinson's disease
- Obesity
- High blood pressure
- High cholesterol

Sudden changes in your sensual ability can impact your ability to be involved in sensual contact. Even medications used to treat depression and high blood pressure can also impact sensual interaction.

## **Mental and Emotional Issues**

The following are the various issues that might lead to sensual dysfunction among the men:

- Stress,
- anxiety,
- depression, and
- other mental and emotional issues
