

Handle with Care: 5 Delicate Skin Essentials From Epicuren Discovery®

## Handle with Care: 5 Delicate Skin Essentials From Epicuren Discovery®

---

Put simply, the more delicate parts of the skin require delicate care. Those areas, such as the neck and under-eye skin, are also more prone to the appearance of visible signs of aging. With clean skincare brand Epicuren Discovery®, you have plenty of luxurious options for taking great care of your skin, from velvety [neck firming lotion](#) to eye makeup remover that won't rub your lashes the wrong way. Here are some product ideas to enhance the appearance of your skin and leave it looking softer, smoother, and more visibly hydrated.

### Tighten Up Neck Firming Cream

The skin in the neck area is more prone to the appearance of visible signs of aging because it is more delicate than other parts of the body. Epicuren's neck firming lotion is a velvety moisturizing cream that helps the skin appear more flawless. If you've been on the hunt for a formula designed to leave your skin appearing softer and more radiant, give the luxurious Tighten Up Neck Firming Cream a try.

## **Aloe Vera Calming Gel**

If you're looking for clean, effective skincare, try Epicuren's Aloe Vera Calming Gel, made with pure whole-leaf aloe vera plant. Aloe is known to help moisturize all skin types, especially sensitive skin. Epicuren's gentle blend of botanical ingredients in this [aloe vera gel](#) may help you maintain radiant-looking skin. It's the perfect product for the face and neck and can be used morning and night as part of your skincare routine.

## **Crystal Clear Eye Makeup Remover**

Taking off your eye makeup shouldn't involve rubbing and tugging on your fragile lashes and the delicate skin around your eyes. This gel eye [makeup remover](#) from Epicuren easily removes mascara and eye makeup—and it has peptides and vitamins to help strengthen the appearance of the delicate skin around the lashes and eyes. Once you remove your eye makeup, you can cleanse as usual with one of Epicuren's high-quality cleansers.

## **Himalayan Superfruit Enzyme Polish**

Another product you might like to try after cleansing is the Himalayan Superfruit Enzyme Polish for gentle exfoliation. Featuring an exotic blend of pomegranate, goji, raspberry, bilberry, cranberry, acai, and noni, this enzyme exfoliator helps leave the skin looking polished and refined. You can use it on your face and neck (avoid the eye and lip areas).

## **Eye Cream with Metadermabolic® Protein Enzyme Complex**

A great way to keep your under-eye area looking hydrated and radiant is with the Eye Cream from Epicuren, featuring the brand's Metadermabolic® Protein Enzyme Complex. This complex is a combination of proteins and water-soluble B vitamins that help diminish the appearance of tired eyes so they appear more radiant and awake. The Eye Cream helps keep your delicate under-eye skin looking hydrated thanks to its rich lipids.
