

Horror Horology: 5 Must-Have Spooky Watches From Armitron®

Horror Horology: 5 Must-Have Spooky Watches From Armitron®

Watch out! The spookiest season of the year is finally here. Of course, those of us who love all things fall have been looking forward to the arrival of Halloween season for the entire year.

If you live for the spooky and mysterious, goosebumps and shivers up the spine, you need to check out the selection of watches from Armitron®. You can find watches that are perfect for Halloween among the brand's selection of [digital watches](#), sport watches, and more.

Here are five recommendations you can add to your collection to make sure you won't miss the witching hour.

Nevermore – Raven™

The first thing you'll notice about the jet-black Raven™ collection is that the colors on the watch face explode from the dark background. It's smooth silicone case and strap make it both comfortable and durable. The Raven™ is a stylish, versatile timepiece with neon hour markers and hands that really pop.

To fully lean into the spooky spirit of the Raven™, opt for the orange and black model.

Skeletal Elegance – Skeleton™

There's no question that the Armitron® Skeleton™ is an elegant example of the classic, dressy [silver watch for men](#).

This watch, however, shows off its complex inner workings by baring its skeleton for all to see. The face of this handsome design is cut away to reveal this watch's bones.

Classic Color Contrast – Lloyd™

Nothing combines spooky season with luxurious style like the classic contrast of black and white. It might bring to mind your favorite, old-school horror movie. Or maybe it can add a touch of sophistication to the costume you created for the fancy Halloween party.

The stark refinement of the silver and black Lloyd™ colorway adds a frisson of frightful fashion to any Halloween outfit. The bright white of the dial contrasted with the bold black of the subdials is reminiscent of a scary, sophisticated skull.

Pumpkin Power – Tom™

Like all Armitron® [sport watches for men](#) and women, the Tom™ is a chunky, rugged, and multi-functional timepiece.

In the bright orange colorway, it's also an unmissable statement piece you can wear all season long. Adding the Tom™ to your favorite fall outfit is like being able to wear the world's most practical pumpkin.

Mind-Bending Magic – Prismatica™

What would Halloween be without the promise of some mind-bending magic and spooky sorcery? And how else could you explain the supernaturally stylish vibrancy of the Armitron® Prismatica™?

Far from the traditional static watch face, the Prismatica™ cycles through a gorgeous and kaleidoscopic rainbow of colors with the passing of time. That means you get to carry around

your own little manifestation of magic without having to bother with the bubbling cauldrons or learning how to ride a flying broom.

If you like the mystique and vibe of Halloween, these watches are the perfect seasonal addition to your collection.
