ELEVATORS

# HOW TO FIND AN EXCELLENT ELEVATOR MANUFACTURER?

# ABOUT US

**Attico Elevators** is a Glocal business partner of GMV India (100% Subsidiary of GMV Spa, Milan Italy). Attico was established by a team of successful professional who have a rich corporate experience in the field of vertical transportation who enable you to design, specify, procure and execute exceptional elevator solution. We are here to partner in your success, support your cause to deliver efficient cost effective solutions.

# INTRODUCTION

Elevators typically use electric motors to power either a traction cable and counterweight system or a hydraulic fluid system to raise a piston. The traction cable system is the most common type.

# RESEARCH AND GATHER INFORMATION:

- **Industry Leaders:-** identify established elevator manufacturers with a strong brand reputation in your region.
- **Compliance and Certifications:-** Ensure the manufacturer adheres to relevant safety standards and certifications.
- **Client Reviews and References:-** Check online review platforms and ask the manufacturer for client references.

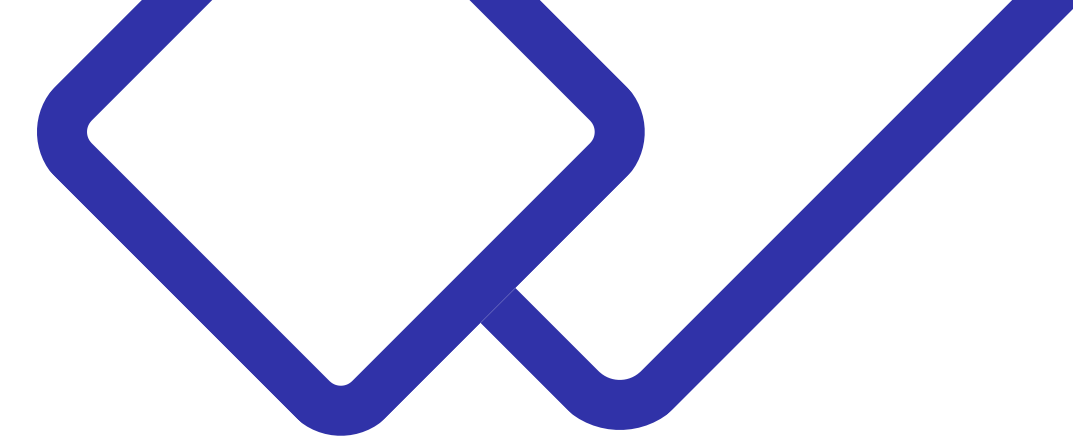

# EVALUATE PRODUCTS AND SERVICES:

- **Product Portfolio:** Review the manufacturer's product portfolio to see if they offer elevators that align with your needs.
- **Technology Integration:** Explore if the manufacturer offers elevators that can integrate with modern technologies like building management systems or access control systems.
- **Installation Maintenance Services:** Inquire about the manufacturer's installation and maintenance services.

# COMPARISON AND SELECTION

- **Request Quotes:** Once you've shortlisted a few manufacturers, request quotes for your specific elevator needs.
- **Site Visits:** If possible, schedule site visits to the manufacturer's facilities and completed projects.
