

## Improve Sensual Performance Using Sidalist 120mg

**Sidalist 120** represents an efficient form of treatment that enables a man to overcome ED. It combines two active ingredients: **Sildenafil Citrate 100mg** and **Tadalafil 20mg**, PDE5 inhibitors' class – they inhibit phosphodiesterase type 5 (PDE5). **Sildenafil Citrate** acts like a PDE5 enzyme inhibitor that stops the PDE5. At the same time, **tadalafil** is known to dilate the smooth muscles, which results in an enhanced blood flow that guarantees a sustained erection.
