

## **Kobra 400 HS-OM: Top-Notch Security Shredding**

Kobra 400 HS-OM is a top choice for businesses and organizations. This powerful shredder is designed to meet the strictest security standards, making it ideal for shredding confidential and sensitive documents.

The Kobra 400 HS-OM is equipped with advanced features that ensure secure shredding. It can shred paper into tiny cross-cut particles, ensuring that sensitive information is completely destroyed. It also has a high shredding capacity, allowing you to shred large volumes of documents quickly and efficiently.

In addition to its security features, the Kobra 400 HS-OM is also user-friendly. It has a simple control panel that makes it easy to operate, and it is designed for quiet operation, minimizing disruption in the workplace.

Overall, the Kobra 400 HS-OM is a reliable and efficient shredder that offers high-security shredding for businesses and organizations.

The Kobra 400 HS-OM is designed for maximum security, shredding documents into tiny cross-cut particles that are virtually impossible to reassemble. It meets the strictest security standards, making it ideal for government agencies, financial institutions, and businesses that deal with sensitive information.

In addition to its security features, the Kobra 400 HS-OM is also incredibly efficient. It can shred large volumes of paper quickly, saving you time and effort. Its continuous duty motor ensures uninterrupted operation, allowing you to shred documents non-stop without overheating.

Moreover, the Kobra 400 HS-OM is easy to use and maintain. It features automatic start and stop functions, as well as a convenient automatic oiling system to keep the cutting blades in optimal condition. Plus, its large waste bin means less frequent emptying, further increasing efficiency.

Overall, the Kobra 400 HS-OM is a reliable, high-security shredder that can handle even the most demanding shredding tasks. With its advanced features and robust performance, it provides peace of mind knowing your sensitive documents are securely destroyed.
