

## **Maruti Suzuki Super Carry CNG: The Maruti Mini Truck That Packs a Punch.**

### **Introduction:**

If you are searching for an affordable yet highly proficient small pickup truck, that has a small impact on the environment, try the Maruti Suzuki Super Carry CNG. This multipurpose vehicle is already being felt in the commercial transport industry, and this should come as no surprise.

### **Power and Efficiency Combined:**

The Maruti Suzuki Super Carry CNG has several special features specific to it and the company that makes it. The vehicle comes with a powerful 1196 cc Multi-Point Fuel Injection G12B engine to produce an unbeatable class power of 65 HP at 6000 rpm and a torque of 85 NM at 3000 rpm. The I-GPI technology, for instance, guarantees fuel efficiency enabling freight businesses to cut on costs regardless of their size. No matter if you're driving through dense city traffic or if you are up for some tough off-road conditions, this [Maruti mini truck](#) will live up to its expectations.

### **Versatility and Practicality:**

The Super Carry CNG is not only about the muscular; it has utility written all over it. It also comes in two frames- Cabin Chassis and Cabin with Fixed Side Deck body and has a carrying capacity of 625 kgs. The vehicle's wheelbase is 2110 mm and the turning radius is 4.3 meters making the vehicle suitable for maneuvering. The pickup truck has a Gross Vehicle Weight (GVW) of 1600 Kg and the body size of 7.2 ft in length and 4.9 ft in width; thus, you get the mini truck with perfect size and power for carrying goods. Several other aspects such as a mobile charging point and a bottle holder are some others that makes it even more useful.
