Spring Cleaning the Office? ezCater Helps Keep Food Clutter Under Control

Spring cleaning season is underway. You may be tidying up and organizing around the home. You may even be cleaning and organizing around the office. Spring cleaning can often be called a chore for the home, but it can make a huge difference around the workplace, too.

You may have excess clutter around your desk. There may be things in the office kitchen cabinet that haven't been touched in years. And then there's the office fridge. Oh, the office fridge. If there's one place that can benefit from spring cleaning, the fridge might be it.

As you declutter the office this spring, put ezCater on your workplace's radar. ezCater helps businesses connect with [Cincinnati catering](#)—and catering in nearly every city in America. Not only can you get exceptional food for yourself or the team, but ezCater can also help keep food clutter under control.

The Convenience of the Individually Packaged Lunch

When you think catering, you might think of large trays of food set out for a large group of people. You can definitely order catering packages through ezCater to fit specific needs when you're feeding the whole.

However, when you want to keep things organized and controlled, you and your team can also order individually packaged meals. They're delivered in an organized fashion and your office kitchen isn't overflowing with excess food. Everyone can get what they want and keep it contained. Plus, it makes storing leftovers a breeze (if there are any)!

Striking the Perfect Food Balance

Speaking of leftovers, when you order individually packaged lunches through ezCater, caterers often tailor those meals to strike a balance. That is, they don't pack too much or too little. This can help cut down on leftovers—or, more specifically, leftovers forgotten in the office fridge.

The same can be said of larger catering packages, too. With ezCater, you can order based on your headcount, which gives your caterer a good metric before they start making your order. If you're [catering OKC](#) team lunches this week, you can put in an order with Perk Place Catering and get a Hot Breakfast Buffet for the team without worrying about going overboard.

Food the Team Can't Get Enough of

One factor that can lead to kitchen clutter is boring food. When food lacks flavor or isn't that interesting, it can easily end up in the kitchen fridge, left on the counter, or even tucked away in a cabinet. There, it'll take up space and clutter things up.

ezCater can make food exciting. When you have access to dozens of local restaurants and caterers, you and the team can try new and highly-rated options. Of course, if you're [catering Indianapolis](#) lunches, you can always go back to those caterers you know have the menus that hit the mark every time.
