

Summer Hair Prep for Blonde Manes: 5 Products to Use From UNITE Hair

## Summer Hair Prep for Blonde Manes: 5 Products to Use From UNITE Hair

---

Blondes *know* special care is required to maintain a bright, beautiful hue. With summer around the corner, it's time to prepare your blonde hair for the sunny season with professional-grade hair care products from UNITE Hair. From toning [purple shampoo](#) to UV-protecting styling products, you can find everything you need to keep your blonde locks looking gorgeous all summer long. Put the following easy-to-use products on your summer checklist.

### 1. Award-Winning Hair Detangler

Keep your blonde locks smooth, silky, and tangle-free with UNITE Hair's award-winning 7SECONDS™ Detangler. This lightweight yet powerful [hair detangler](#) works brilliantly on all hair types. UNITE's popular protein-based leave-in spray detangles, strengthens, and protects hair from UV and thermal damage. It's a must-have hair prep for freshly washed hair.

### 2. Must-Have Toning Shampoo for Weekly Use

Say goodbye to brassiness and hello to bright, beautiful blonde locks with UNITE Hair's BLONDA™ Toning Shampoo. This ultra [violet shampoo](#) can be used once or twice a week to tone blonde hair and highlights. It's formulated to neutralize unwanted yellow and orange

tones, leaving blonde hair looking cooler and more vibrant. If your hair is color-treated blonde, it's also the ideal product to use between salon visits. UNITE also offers a non-toning daily purple shampoo in the BLONDA™ Toning System that you'll want to use on no-tone days.

### **3. Essential Non-Toning Daily Purple Conditioner**

Another product you need in your blonde hair care lineup is the brand's non-toning daily purple conditioner that hydrates, protects, and repairs blonde hair and highlights on both tone and no-tone days. BLONDA™ Daily Conditioner soothes, refreshes, and moisturizes your locks without blonde-dulling heavy residues. Featuring vitamins A, E, and C, plus pro-vitamin B, this conditioner is made to moisturize and strengthen hair while adding volume and shine.

### **4. Argan Oil Formulated for Blonde Hair**

Battle the frizz, smooth flyaways, and add shine with BLONDA™ Oil, a clear argan oil formulated just for blondes. This multitasking powerhouse also nourishes, repairs, and protects blonde locks. BLONDA™ Oil gives blonde hair the extra moisture and shine it craves during the summer months. It quickly smooths dry and damaged ends, reduces blow-dry time, and provides UV and heat protection. Do you see why you need this product ASAP?

### **5. Styling Products with UV and Heat Protection**

With UNITE you have your pick of excellent styling products, many of which provide protection from the sun's UV rays and heat from styling tools. This summer, you may benefit from 7SECONDS™ Glossing Spray, an anti-humectant finishing spray that helps control frizz and deliver shine. SMOOTH&SHINE Styling Cream is another great option for taming frizz and flyaways. It also nourishes, softens, and repairs hair.
