

# The Deadman Handle That Performs As Your Safety Guardian

Quantum Blast offers a range of **Deadman Handles** that cater to individual needs and incorporate the highest safety and comfort features. Our deadman handles feature an extended lever for optimal leverage and is easily adjustable for both hand users. The curved body seamlessly aligns with hose contours, ensuring a snug fit to the blast hose. The wide port spacing simplifies twin-line connection for added convenience. Professional sandblasters prefer our brand due to its durability and ergonomic design. Replacement parts are readily available, providing the equipment with a long life.

Visit our website for the best safety equipment and price essential for a secure and effective blasting operation.
