

The Top-Selling Knee and Arm Braces From DonJoy®

The Top-Selling Knee and Arm Braces From DonJoy®

Reliable sports braces and recovery tools can improve your quality of life and boost your athletic performance. They can help your joints distribute weight more evenly and feel more stable whether you live a more active or stationary lifestyle. The braces, [knee compression sleeves](#), and rehabilitation tools developed and designed by DonJoy® are medically recommended and can provide support and stability where you need it most.

Whether you're recovering from an injury or looking for a daily option you can wear for an extended period of time, DonJoy offers products that cater to your lifestyle. DonJoy's best sellers are popular for a reason. They focus on major joints that can experience discomfort from overuse or injury. Here are a few examples of what sets this trusted brand apart from their competitors.

DonJoy® Lateral J Patella Knee Brace

The DonJoy Lateral J Patella Knee Brace allows for airflow while providing support and compression as it stabilizes the knee. The innovative design features a patented nylon core and polyester Lycra fabric, so it's breathable and comfortable. The design is easy to use, versatile, and offers the option to choose a left or right configuration. This brace is an option for dislocations, lateral patellofemoral malalignment, chondromalacia, and lateral patella subluxation. You can wear it during everyday activities and non-contact sports.

DonJoy® Sully Shoulder Brace

The DonJoy Sully Shoulder Brace offers stability and mobility. It features a perforated, breathable neoprene material. The design covers the upper arm, shoulder, and upper chest

area for optimal support that does not compromise movement. It's a brace option for instability, rotator cuff deceleration, shoulder AC separation, and muscle strains. You can wear it for many activities, both athletic and casual.

DonJoy® Performance Bionic Drytex Knee Sleeve

The DonJoy Performance Bionic Drytex Knee Sleeve has a knee-stabilizing, open-patella design with a bilateral hinge. It's one of the knee compression sleeves offered for knee instability, sprains, strains, hyperextension, meniscus injuries, and arthritis. There's a long list of sports you can still enjoy while wearing this sleeve. You can even wear it during yoga, volleyball, and cheer. The cushioned hinge and moisture-wicking material make it a simple and comfortable option for extended use.

DonJoy® Performance Bionic Elbow Brace II

The DonJoy Performance Bionic Elbow Brace II is a dual-hinged [arm brace](#) with adjustable straps. Elbows can be subject to discomfort from overuse and trauma injuries from playing tennis, baseball, and other sports or daily activities. Yes, that includes pickleball! The Bionic Elbow Brace II limits your range of motion to help protect your elbow. You can wear this brace for hyperextension, motion protection, and elbow instability concerns during various activities. With removable dual hinges, an adjustable bicep cuff, and silicone banding, this brace is an excellent option for various levels of recovery and protection.

DonJoy offers a large selection of medically recommended braces and sleeves—from a simple ankle sleeve to the AirCast® [leg brace](#)—to support varying activity levels and help you address a variety of different concerns. If you experience new or worsening discomfort related to your injury or condition, it's important to speak to a medical professional, such as a doctor or athletic trainer, before using a brace. Together, you can build a recovery, support, maintenance, and protection plan that aligns with your lifestyle, activity levels, and goals.
