

Ursa Major's Fresh Products for a Spring Skincare Routine

Ursa Major's Fresh Products for a Spring Skincare Routine

Spring is the season to renew and refresh, and there's no better way to do it than with Ursa Major. The clean skincare brand offers formulas featuring forest-infused ingredients that feel as refreshing as taking a walk after spring rain. You can help renew and rejuvenate your skin when you switch to Ursa Major, and they have some fresh picks to help you get started this season.

Fantastic Face Wash

Wash away any lingering winter buildup with the Fantastic Face Wash. Winter is long behind you, and there's no sense in hanging on to skin that looks dull and dry. The sugar maple in Ursa Major's Fantastic Face Wash is a natural source of alpha hydroxy acids that can cut through daily grime and buildup, leaving your skin feeling deeply cleansed without messing with its pH balance.

Bright & Easy 3-Minute Flash Mask

Ursa Major's gentle enzyme treatment gives your skin a boost, helping it look soft and refreshed. The Bright & Easy 3-Minute Flash Mask is a fast-acting treatment with AHAs and BHAs from aspen bark, pineapple, and hibiscus, so it gently and effectively exfoliates the skin.

Essential Face Tonic

Available in a spray bottle, with a flip cap, or infused in travel-friendly [wipes for face](#), the Essential Face Tonic works to cleanse, exfoliate, soothe, and hydrate. It's a must-have for every

season but perfect for anyone who wants to maintain a radiant-looking complexion this spring. It helps lift oil, dirt, and environmental impurities from your pores for a smooth, calm-looking complexion.

Brighten Up Vitamin C Serum

Soak up some vitamin C with Ursa Major's potent Brighten Up Vitamin C Serum. This [brighten serum](#) is an excellent option for anyone looking to enhance their routine with a clean and effective serum that doesn't contain harsh or suspect ingredients. Ursa Major uses a stable form of vitamin C to ensure peak freshness (perfect for those fresh spring vibes) and plant actives that brighten dull-looking skin and help lighten the appearance of dark spots.

Fortifying Gel Moisturizer

Apply Ursa Major's Fortifying Gel Moisturizer to help your skin feel clean, refreshed, and hydrated all day. This ultra-lightweight moisturizer has a serum-like texture that glides over the skin. It delivers nutrients from forest-infused ingredients, including aloe, willow bark, kendra seed, and olive leaf. The Fortifying Gel Moisturizer layers incredibly well beneath other spring essentials, like an SPF product, so it's a great option for warm and sunny spring days.

Force Field SPF 30

Sun protection is a must throughout the year. UV rays can come through clouds, and we constantly expose ourselves to blue light and environmental pollutants. Ursa Major's easy-to-blend Force Field SPF 30 is the SPF product everyone needs. It's lightweight, non-greasy, and mineral-based, making it a safe and effective product to help protect your skin.

Ursa Major helps you pick the freshest products for the most stunning skincare bouquet. Between the [vitamin C serum brightening](#) your complexion and the SPF helping to protect your skin, you can build a clean and effective skincare routine from the ground up.
